

trend!

Trends come and go but timeless classics never really change.

Designers have given us many interpretations this season... from heritage looks to modern-edgy. Come by to check out what we selected for you!

COLOR is always important but sometimes we forget how beautiful neutrals can be. Camel, beige, ivory and grey make their own statement this fall. Added shots of color such as royal, teal, lime, mustard, plum and pumpkin make an outfit pop.

Nowhere is **TEXTURE** more evident than in our sweaters. This is the season of the luxurious knit. From cable to chunky...cashmere to cotton. Treat yourself to two.

Many of the fall **FABRICATIONS** this year are inspired by menswear. Houndstooth, herringbone, tweeds, checks and plaids show up in everything. Animal prints have resurfaced and a leopard print scarf will help pop that sedentary jacket.

REDEFINE your wardrobe by adding a little newness. A beautiful piece of outerwear, an iconic LBD, a fabulous sweater, a timeless jacket, a jersey pullover, a cashmere poncho, black silk pants or a new pair of jeans is all it takes to freshen up a stale closet.

Fall is a wonderful time to **TRAVEL!** We've all learned that taking more is not necessarily better when it comes to packing for a trip.

Regardless of whether you roll or bundle, lay out what you think you need, edit... then take half! Pick one color scheme (black, grey or brown) and add a few tops to compliment your bottoms. Reversible jackets, sweaters and skirts help to lighten the load. Dress in layers and you will be ready for most climate and temperature changes.

Accessorize, accessorize! Pack your stole or poncho for warmth, an organizational cross-body bag for security and slip-on shoes, warm socks and coobie bras. Leave your fine jewelry at home and go costume instead. Trade in your large cosmetic bottles for sample-size.

Scan your ticket, passport and other important documents to your cell phone for convenience.

Drink lots of water and stay hydrated. When flying, walk around inside the airplane and do gentle yoga stretches. A protein bar, dried fruit and nuts can sometimes come in handy.

fall-winter 2014

It's October (really, where does time go?) and the shop has been flowing with gorgeous Fall merchandise since the first day of July. Occasionally we get the question "when are you expecting more?" but, usually, it's more like, "I need my glasses, so I can see it ALL!" So on goes our Mission of Buying (for next year!) and Selling.

Of course, the best part is the Selling, which usually involves a Happy Shopper. (And we love a Happy Shopper!) Rarely does a day go by when we're not offering fashion advice or planning an outfit for your special occasion. We also attend Markets, and arrange Fashion Shows and Closet Consultations. Yet, ultimately, when those hand-picked-just-for-you items leave the store or you share photos wearing something from The Dandelion for WHER2NXT? we feel overwhelmed and pleased. Our Mission is complete!
